

Rauland Enterprise

ONSITE DEPLOYMENT

Overview

Bringing the industry's most advanced nurse call system to your hospital, Lone Star Communications ensures seamless deployment and ongoing support for Rauland Enterprise. With our unmatched Rauland expertise, we deliver solutions that enhance security, reliability, and scalability, giving your team the tools to adapt and thrive in an ever-changing environment.

THE CHALLENGE

Hospitals invest heavily in their nurse call systems. Maximizing the reliability and effectiveness of these systems is critical to ensuring a return on that investment, improving both patient outcomes and staff efficiency.

THE SOLUTION

Partnering with Lone Star Communications means a smooth, efficient deployment of Rauland Enterprise tailored to your hospital's unique needs. With over three decades of experience as Rauland's top integrator, we bring unmatched expertise and a commitment to quality.

Our Proven Expertise

Decades of Rauland Excellence

For 33 years, Lone Star Communications has been a leader in deploying Rauland Nurse Call technology.

Industry-Leading Clinical Support

We've built the largest team of Clinical Application Specialists in the Rauland network, giving us the expertise to streamline workflows and integrate complex systems. Whether it's low-voltage wiring or advanced data science, our multidisciplinary teams deliver fast results without compromising quality.

Maximize the Value of Your Investment

Our team works side by side with your clinical staff to integrate Rauland Enterprise into existing workflows, helping your hospital take full advantage of new operational and reporting features.

Rauland Enterprise

ONSITE DEPLOYMENT

Enhanced Data Insights

Rauland Enterprise brings data from across your hospital or healthcare system into a unified platform, providing a comprehensive view of operations. For quality and patient experience teams, this data enables the creation of consistent care standards while offering insights to improve outcomes and efficiency.

A Security Upgrade & Smooth Transition

Proper deployment of Rauland Enterprise strengthens security across your hospital systems, reducing risks and safeguarding operations. Our project management team ensures a seamless transition to Rauland Enterprise, bringing your clinical engineering team up to speed on all updates.

Optimizing Clinical Workflows

Lone Star's Clinical Application Specialists go beyond deployment to ensure your system continues to meet your needs. Their services include:

- ✓ Monitoring alarm and notification data for trends and anomalies
- ✓ Representing your team on Alarm Committees, as requested
- ✓ Adapting dashboards and reports to align with new initiatives
- ✓ Offering point training for new users as they join your team

Unlocking the Power of Data

Beyond Rauland Enterprise, Lone Star offers analytics services that connect data from across your clinical care environment. Our experienced team transforms siloed information into actionable insights that drive critical decisions.

Features include:

- ✓ Highly configurable reports for long-term analysis or real-time visibility
- ✓ The ability to review alarm and response sequences for any room and time frame

Partner with the Best

Lone Star Communications isn't just a technology provider—we're a trusted partner, dedicated to helping you achieve operational excellence and better patient outcomes. With Rauland Enterprise and our unparalleled expertise, your hospital is equipped for success.
